Subject: RE: Draft Notification Letter to Kent County Residents on EPA's December 2017 Residential Drinking Water Sampling Results

Chris,
 Thanks for the email.
 I will take a look at the letter and get back with you tomorrow.

I look forward to future conversations with you and your staff. Jenny Wilson and I talked today about having her come to Grand Rapids to have more in-depth discussions on the drinking water aspects of the Wolverine project.
 Thanks for your help,

Abby

Subject: Draft Notification Letter to Kent County Residents on EPA's December 2017 Residential Drinking Water Sampling Results

Hello Ms. Hendershot:

You don't know me, but I'm the Director of the Water Division here at EPA Region 5. In the interest of good communication, I wanted to share with you, as MDEQ's key Wolverine contact, the draft notification letters we are preparing to send to 16 Wolverine-impacted residents of Kent County regarding EPA's sampling of their drinking water in December. (I note that there will be two slightly different versions of the letter, depending on whether the sampled home was employing a filter or not.) EPA would appreciate any comments MDEQ may have.

The draft letter has already been shared with MDH and KCHD, and we are sending this letter to our HQ for input as well. I would appreciate MDEQ's quick response, because it is our hope to send the result letters to the residents early next week. Feel free to provide any comments back to me. I also attach as a pdf a copy of EPA's PFOA/PFAS fact sheet which will be attached to the results, along with an acronym key.

Finally, I will be in touch in the near future about who is going to act as EPA's key point of contact (i.e., your counterpart) on Wolverine-related matters.

Thanks.

Chris Korleski
